LourdesCare and Its Deep Sustainability Roots

Members of the Cherry Hill community have long known Our Lady of Lourdes Medical Center in Camden as an outstanding hospital known for its exceptional heart care and other important services such as surgery, maternity, emergency medicine and rehabilitation. Last year, Lourdes became a neighbor with the opening of its first ambulatory care facility in the heart of Cherry Hill. The renovation of a “gray field” site marks the ultimate in sustainable practices, as Lourdes chose to reuse an existing property rather than to disturb any natural ecology. This reverence for nature is in the history and mission of Lourdes Health System, which was founded by Franciscan Sisters of Allegany New York—whose patron saint is St. Francis, known for his love of nature and animals.

At LourdesCare at Cherry Hill you will find a convenient one-stop shop for expert medical care, radiology and lab services, to help you maintain your health. And coming very soon—you and your family will have the additional service of an Urgent Care Center with hours. Lourdes Urgent Care will be open 10 a.m. to 9 p.m. daily and 9 a.m. to 5 p.m. Saturday and Sunday.
